

How Does EPS90 Work?

- ❖ Choose the payment plan for your customer (up to twenty checks).
- ❖ Scan the checks into the EPS90 system using a RDM check imager and the EPS90 software.
- ❖ Complete the agreement with the check information and dates.
- ❖ Fax or email the agreement to EPS.

Electronic Payment Systems is the only company to have the 90 day no credit check financing and credit/debit card processing on the same terminal.

What Is The EPS90 No Credit Check Payment Plan?

The EPS 90 day no credit check program allows the customer to make a purchase today, and offers that customer the opportunity to pay for the products or services over a 90 day period. The program is based on turning paper checks into guaranteed electronic debits from the customer's checking account.

This check conversion and guarantee program gives the customer the ability to receive the goods or services they need immediately, when qualifying for credit or paying up front may not be an option. This also allows the merchant to up-sell better products or services, having an advantage over the competition.

ElectCheck was established in 1993 and for over 16 years has offered numerous innovative payment solutions to business owners and consumers alike. Thousands of reputable and quality minded business owners throughout the United States offer ElectCheck programs including the EPS 90 day no credit check in-house payment plan.
